

POWER SCREWDRIVER

Delivery scope		
Designation	Art. No.	P. Qty.
S 12 ASSY®	0702 012 X	1
Additional handle	0708 496 053	1
Connection piece 1/2" for 5/16" bits	0715 13 02	1
Bit 5/16" AW 40	0614 554 0	5
Empty carrying case	0955 702 012	1

Technical data	
Voltage	230/50 V/Hz
Protection class	□ / II
Power consumption	740 watt
Power output	450 watt
Load speed	400 rpm
Max. tightening torque	appr. 70 Nm
Tool mounting	1/2 inches
Weight	appr. 3.7 kg
Cable length	5 m

Even screw connections in support beams are no problem thanks to the high torque.

Work in inaccessible areas can be performed with the additional handle removed.

The problem solver for extensive screw-in applications in wood. The angled construction can easily handle high torques of up to 70 Nm.

S 12 ASSY®

Art. No. 0702 012 1

- Angled shape can handle high torques. This reduces the danger of accidents and injuries.
- Right- and left-running for screwing in and removing screws.
- 1/2" square tool mounting allows flexible tool use.
- Very robust machine developed especially for hard use at construction sites.
- The angled construction makes working in inaccessible spots possible.
- Quieter and up to four times faster than impact screwdrivers.
- Quality product made in Germany.
- 3 year guarantee.
