

4/4 MM CONNECTOR

Straight

- Ideal for connecting/extending measuring cables.
- Measuring voltage: IEC1010 1,000 V CAT III 10 A.

Art. No. 0715 531 007

P. Qty./Pair 1

MULTI-CLIPS

- Thanks to its three contacting options, the "multi-clip" offers a host of usage possibilities: round contacts, small flat contacts, thin leads with the finest wires and piercing of insulated cables.
- Measuring voltage: < 50 V

Art. No. 0715 531 008

P. Qty./Pair 1

MINI PROBES

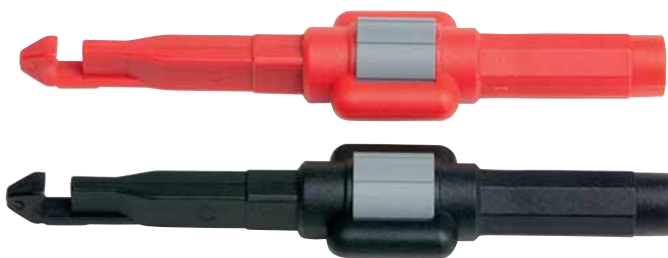

Including cable-piercing adapter for cables up to 3.3 mm dia.

- Measuring voltage: < 50 V

Art. No. 0715 531 009

P. Qty./Pair 1

INSULATION INSERTION CLAMPS WITH ROTARY SETTING KNOB

Suitable for cable diameters up to 4 mm

100% control of the penetration depth thanks to the centrally located rotary setting knob

- Minimal damage to the insulation
- One-handed operation without rolling up/twisting the measuring cables

With 4 mm jack

- Enables the use of 4 mm measuring cables.

Measuring voltage: < 50 V

Stainless steel test needle

Art. No. 0715 531 011

P. Qty./Pair 1
