

Safety Clamp Grippers, flexible

- Can be attached to all spring-action 4 mm plugs.
- Spring-wire clamp in flexible, silicone-insulated shaft.
- Measuring current/voltage: Max. 4 A / 1,000 V CAT III.
- Excellent heat-resistance.
- **Delivery scope: One red clamp gripper and one black clamp gripper.**

Art. No. 0715 53 840

P. Qty. 1

Safety Test Tips, fine

- Slim stainless-steel tips, rigid.
- With tip-protection cap for gripping individual IC pins (2.54 mm grid) as well.
- Measuring voltage: 1,000 V CAT III.
- Can be attached to all spring-action 4 mm plugs.
- **Delivery scope: One red test tip and one black test tip.**

Art. No. 0715 53 860

P. Qty. 1

“Automotive” Safety Measuring Lead Set

Consisting of:

- 4 mm safety measuring leads, silicone-insulated, $l = 1 \text{ m}$; 1.0 mm^2 dia.; measuring current: 19 A; temperature-resistance: -80°C to $+150^\circ\text{C}$.
One side with straight 4 mm safety plug and other side with angled 4 mm safety plug.
- Safety dolphin clamps, fully insulated (Art. No. 0715 53 830).
- Attachable safety test tips, stainless steel, rigid, with tip-protection cap for gripping individual ICs (2.54 mm grid).
- Attachable safety claw gripper with powerful, externally-insulated claws.
Measuring current/voltage: 16 A / 1,000 V CAT III.
- **Delivery scope: One red version and one black version.**

Art. No. 0715 53 870
