

SUCTION LIFTER

With vacuum pump and indicator

- **High lifting capacity and safety reserves**
thanks to the integrated vacuum pump and large suction disk diameter
- **Safe working thanks to vacuum verification**
via marking ring
- **Especially comfortable to carry**
thanks to the padded and anti-slip handle
- **Ergonomic holding area**
thanks to the high grip height

Lifting capacity/ Direction of force*	Weight	Suction disk dia.	Art. No.	P. Qty.
120 kg	830 g	210 mm	0714 58 045	1

*Parallel to the suction disk

With three movable heads

- **High lifting capacity and flexibility**
thanks to three movable suction heads
- **Also suitable for transporting curved windows,**
e.g. car and bus windows
- **Ergonomic holding area**
thanks to the high grip height

Lifting capacity/ Direction of force*	Weight	Suction disk dia.	Art. No.	P. Qty.
70 kg	1,570 g	120 mm	0715 58 02	1
Spare Rubber Disk incl. rocker lever and pin			0714 58 041	

*Parallel to the suction disk

With vacuum indicator and two fixed heads

- **Safe working thanks to vacuum indicator** by means of warning rocker switch in rocker lever. This pops out if the vacuum in the suction head has weakened.
- **Can also be used on sandblasted windows,** for holding briefly. Even a slow loss of the vacuum is detected and shown by the indicator.
- **Ergonomic large handle**

Lifting capacity/ Direction of force*	Weight	Suction disk dia.	Art. No.	P. Qty.
50 kg	680 g	120 mm	0714 58 047	1

*Parallel to the suction disk
