Hart metal replacem. pin
Art. No. 0714 70 05
Pack Qty. 1

Length mm	Weight g	Art. No.	P. Qty.
150	40	0714 70 09	1

Simple snap-off

- Don't regrind blunt hard metal micro pin, simple snap off about 3 mm and keep scribing.
- The useable length of the pin is no less than 25 mm.

Or re-sharpen

- Briefly run the face of the pin across a whetstone.

Extremely precise

- With its circular cutting edge the micro pin cuts a groove into the metal.
- All scribed lines are clearly visible.

Hard Metal Scriber

For clear and precise scribing.

- For metals, glass, ceramic tiles, porcelain and plastics.
- Captive hard metal pin in brass sleeve.
- The drop-down feature brings the pin quickly into the scribing and retracted position.

Scriber

- With hart metal point and clip.
- In plastic pouch.

Hard Metal Scribing Pen

with micro pin

- Pin without point (Ø 0.38 mm).
- Circular cutting edge lasts 5-6 times longer.
- Push blunt pin out by about 3 mm, snap off and continue scribing.
- Push the button to extend the mechanism from the shaft.
- Push the trigger at the clip to retract the pin head into the protective shaft.
