

Compact Bolt Cutters

- For cutting hardened steel wires.
- Inductively hardened precision cutting edges.
- Particularly high cutting performance with low force application thanks to lever transfer.

Length		Weight in g	Cutting values in mm Wire dia.				Art. No.	P. Qty.
in mm	in in.		soft	medium	hard	piano		
200	8	350	6.0	5.2	4.0	3.6	0715 06 01	1

Lever-Action Trimmer DIN 5239

- For cutting hardened steel wires.
- Cutting edges also inductively hardened.

Length		Weight in g	Cutting values of hardened steel wires up to dia. in mm	Art. No.	P. Qty.
in mm	in in.				
180	7	430	3	0714 06 01	1
210	8 1/4	600	3.5	0714 06 02	
235	9 1/4	760	4	0714 06 03	

Bolt Trimmer

- For cutting off and removing projecting bolts, pins and wires. Ideal for cutting to length on level surfaces.
- Cutting edges also inductively hardened.
- Reduced force application thanks to optimum transfer.
- Polished head, handles plastic-covered.
