Handle	100 mm foil width	**0992 901**	3
Handle sleeves	500/430 mm foil width	**0992 902**	10 (5 pairs)
Ergo sliding sleeves	500/430 mm foil width	**0992 902 001**	2 (1 pair)

For fast packing without cutting and gluing.

No adhesive residues

When removing film from the product, no adhesive residues are left behind.

Good mouldability

Corners, edges and curves etc. can also be packaged and/or protected quickly and reliably with the film. This also means considerable time is saved.

Fast to tear off

The film can easily be torn off by dragging on the protruding section of the winding core. As a result, no extra cutting tools are required to cut the film.

Transparent film

Despite the packaging, adhesive information, address or designation labels and the product itself can be seen.

Black film

Opaque colouration around product to protect against theft and exposure to sunlight.

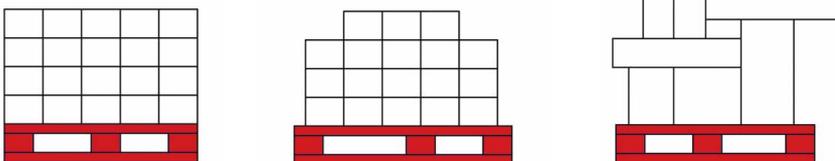

Handle for 100-mm film.

Handle sleeves for 430 and 500 mm film.

Ergo sliding sleeves for 430 and 500 mm film.
