

HEAT-RESISTANT CREPE MASKING TAPE

Crepe adhesive tape for painting work with high temperatures.

Heat resistant to +120 °C

The tape is also ideally suited for painting tasks that require oven drying.

Waterproof

Also well suited to painting work with aqueous varnish and paint systems and for wet sanding.

Very good adhesive strength and adaptability

Excellent adhesion to all smooth substrates used in the construction and automotive industries, e.g., glass, aluminium, steel, painted metal, and other surfaces. Curves can also be bonded thanks to creping.

Easy to remove again

The tape can be removed again immediately after painting and leaves no residues.

Can be labelled

The tape is ideal for labelling cardboard packaging, cans, etc.

Application area

- Painting work in body area, and painting tasks that require oven drying
- Masking tasks in painting sector
- Securing masking paper
- Labelling cardboard boxes and cans

Notice

To ensure residue-free removal, the tape must be removed immediately after the paint or varnish has dried. The adhesive tape is not UV-resistant and is therefore not suitable for outdoor applications.
