

EASY MASKING TAPE

Segmented special tape used as a covering aid for seals around vehicle windows and doors.

Split plastic lip for easy insertion to different seal depths.

Thanks to the split in the plastic lip, both flat and recessed seals can be lifted with a single tape.

Easier to insert thanks to the plastic lip, which also saves time during removal.

Faster to process in comparison to conventional products.

Perforation in tape.

- The desired length can be torn off by hand without the need for an additional tool.
- It is very easy to tape radii, e.g. of window seal rubber.

Heat-resistant up to +150°C.

Excellently suited for painting work for which oven drying is required.

No materials containing silicone used. Suitable for water-based paints.

Width in mm	Length in m	Overall thickness in mm	Art. No.	P. Qty.
50	10	0.38	0992 050 010	1

Areas of Application:

- Covering work on seals in the window and door areas of vehicles.
- Excellently suited for oven drying.

Technical data	
Adhesive basis	Modified natural rubber
Substrate	Special paper (beige) with split polyester insertion strip
Bonding strength	10 N/25 mm
Elongation at tear	-
Processing temperature	+5°C to +40°C
Temperature resistance	Up to +150°C
UV resistance (outdoor weathering)	Not a given
Moisture resistance	Given
Shelf life at +20°C and 50% humidity	24 months

With this information, we want to advise you to the best of our knowledge based on our tests and experience. We shall assume no liability for the application results in individual cases, however, due to the large number of applications and the storage and application conditions that lie outside the scope of our influence. This also applies to the use of the non-binding technical and commercial customer service we provide. We always recommend that you conduct your own tests. We guarantee the consistent quality of our products. We reserve the right to make technical changes and carry out further development.
