

# Mini Lifter Set

**Art. No. 0691 500 152**

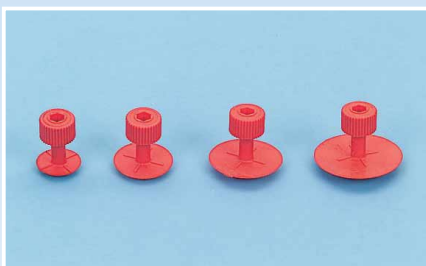

The Mini Lifter is especially suitable for repairing small, soft dents in various materials.

## Advantages:

- Small, light and very handy device.  
→ Can be used by anyone.
- The contact feet can be set precisely on the dent.  
→ The edge of the dent is not pulled up.
- The special swiveling contact feet adapt to any contour.  
→ Optimal support and gently treatment of surface finish
- Reverse deformation can be verified on a scale on the device  
→ Assures controlled reverse deformation of the dent.
- The new adhesive remover does away with the time-consuming procedure with blower, spatula and cleaner. Simply spray the remover on and remove the adhesive.  
→ This new technique lets you get work done efficiently and quickly.

## Attention!

The adapters Art. No. 0691 500 154 + 155 also fit the Dent Lifter and Maxi Lifter. However, the Dent Lifter Art. No. 0691 500 115 – 122 cannot be inserted in the Mini Lifter.

Advanced adapter with ball-shaped and improved bonding surface assures best possible work results when repairing small dents.

The cross mark permits exact and problem-free bonding of the adapter to the deepest point of the dent.
