

## Drill/screwdriver set RW Edition 2020

**31 pieces. Limited edition with Reinhold Würth signature. Includes innovative high-performance drill bits with unique SMART STEP technology, a magnetic 1/4 inch bit holder, the most common bits and magnetic socket wrench blades for use in drill drivers.**

**The first twist drill with stepped drill bit tip geometry, exclusively available at Würth**

- For numerous different materials, such as steel up to 1000 N/mm<sup>2</sup>, aluminium, plastic, non-ferrous metals, hardwood and softwood
- Precise circular holes without centre-punching
- Extremely convenient drilling
- Saves pre-drilling, precise spot drilling without running off centre
- Tilted drilling possible
- Simple core drilling or enlarging an existing drill hole
- Perfect for drilling out rivets and stud bolts
- Ideal for window construction
- Significantly quicker than conventional ground twist drills
- 3-face shank

**Limited edition bit holder with one-handed quick-change function**

**Bits with colour-coding for easy assignment to screw drive**

**Connected with a good cause – Würth will donate 2 euro to a non-profit organisation from each set sold**

**Delivered in an exclusive metal box with the Reinhold Würth signature**

**Printed foam insert in carbon finish for improved robustness, stability and easy cleaning**

Number of pieces in assortment/set	31 PCS
