

Cordless LED hand-held lamp WLH 1.4

Hand-held lamp with SMD LED, magnet, rotating and foldable hook

Perfect lighting

- Easy suspension of the light thanks to the 360° rotating and folding plastic hook
- Flexible attachment to all metallic surfaces due to a strong magnet in the base of the lamp
- Ideal for illuminating a working environment due to its main light with 250 lumens
- Quickly identify an empty battery with the indicator light

Continuous working

- Short charging time and long light duration due to state-of-the-art lithium-ion rechargeable battery technology
- Due to the compact design, it can be stored anywhere quickly and easily

Scope of delivery

- Hand-held lamp, USB-A/USB-C cable, 100-240 V 50/60 Hz power supply

Luminous flux	250 lm
Luminous period	5 h
Charging time	4 h
Impact resistance	IK07
IP protection type, lamp	IP 65
IP protection type charger	IP 20
Nominal voltage	3.7 V/DC
Rechargeable battery/ battery capacity	2000 mAh
Type of rechargeable battery/battery	Li-Ion
Protection class lamp	Protection class III/safety extra-low voltage
Protection class charger	Protection class II/protective insulation
Min./max. charging voltage	100-240 V/AC
Min./max. frequency	50/60 Hz
Connection type	USB type A, USB type C
Power-lead length	1200 mm
Min./max. operating temperature	-5 to 40 °C
Charging temperature min./ max.	5 to 30 °C
Length x width x height	78 x 33 x 113 mm
Plug type	C

Art. no. 0827 940 114

P. Qty.: 1

Details/Application

Instructions

Suitable for indoor and outdoor use
